

Arizona Science Center

Capital and Endowment Campaign

Honor Roll of Donors

As of June 5, 2008

Arizona Science Center wishes to commemorate the generosity of all those who have supported its \$21.5 million *The Future of Education is Science* capital and endowment campaign to enhance exhibits and facilities; expand working capital and increase endowment.

It is through the support of these fine individuals, corporations and foundations that Arizona Science Center is able to continue to effectively engage young people – and their families and teachers – in a lifelong exploration of the scientific secrets that shape their world and universe.
