

### **ELEMENTARY AND JUNIOR DIVISION CATEGORIES**

### **GRADES 5-8**

### **ANIMAL SCIENCES**

CODE: AS

Study of animals and animal life, including their structure, function, life history, interactions, classification, and evolution.

# BEHAVIORAL AND SOCIAL SCIENCES

**CODE: BE** 

The science or study of the thought processes and behavior of humans and other animals in their interactions with the environment studied through observational and experimental methods.

# CELLULAR AND MOLECULAR BIOLOGY

CODE: CB

The study of the structure and formation of cells.

### **CHEMISTRY**

CODE: CH

The science of the composition, structure, properties, and reactions of matter.

#### **COMPUTER SCIENCE**

CODE: CS

The study of information processes, the structures and procedures that represent processes and their implementation in information processing systems. It includes systems analysis and design, application and system software design, programming, and datacenter operations.

## EARTH AND PLANETARY SCIENCE

CODE: EA

The study of sciences related to the planet Earth (Geology, mineralogy, physiography, oceanography, meteorology, climatology, speleology, seismology, geography, atmospheric sciences, etc.).

### **ENGINEERING**

**CODE: EN** 

The application of scientific and mathematical principles to practical ends such as the design, manufacture, and operation of efficient and economical structures, processes, machines and systems.

# ENVIRONMENTAL SCIENCES

**CODE: EV** 

The analysis of existing conditions of the environment.

### **MATHEMATICAL SCIENCES**

CODE: MA

The study of the measurement, properties, and relationships of quantities and sets, using numbers and symbols. The deductive study of numbers, geometry, and various abstract constructs, or structures.

# MEDICINE & HEALTH SCIENCES

CODE: ME

The science of diagnosing, treating, or preventing disease and other damage to the body or mind.

## PHYSICS AND ASTRONOMY

CODE: PH

Physics is the science of matter and energy and of interactions between the two. Astronomy is the study of anything in the universe beyond the Earth.

#### **PLANT SCIENCES**

CODE: PS

Study of plant life, including their structure and function, life history, growth, interactions with other plants and animals, classification, and evolution.

# TECHNOLOGY ENHANCES THE ARTS

**CODE: TECA** 

The use of technology to ignite new concepts, visualization tools and/or media to enhance our enjoyment of the arts.
